The Tilden Code of Ordinances

Chapter 21

Section 6:

For the purpose of access of emergency vehicles, it is recommended that:

- A. The remaining slope of the driveway may have a grade not to exceed 6% upward or down-ward from the roadbed level.
- B. Ample width; equivalent of one standard road lane (11) eleven feet.
- C. The removal of all obstructions, all directions, including overhead.
- D. Retaining walls or drop offs should be at least (4) four feet from the traveled portion of the driveway.
- E. Curves or corners should take into consideration easy access for emergency vehicles that cannot make tight corners.
- F. Conditions created by adverse weather, including rain, snow, ice, and heat be considered.

Failure to meet these recommendations may negate your ability to receive emergency services.
